OPIOID 7-DAY QUANTITY LIMITATION- SHANA MALONE, AHCCCS

1. AHCCCS is reviewing multiple strategies to prevent prescription opioid abuse and misuse as well as to decrease the number of deaths associated with opioid misuse. A current issue identified is the

over-prescribing opioids to opioid naïve individuals. The recommendation by the CDC is to limit new starts in opioid naïve individuals to a 7-day supply.

- a. In 2015, 2 deaths a day were reported in Arizona due to Opioid prescription overdose.
- b. Over-prescribing on first-fills is a noted issue. The recommendation would be to limit first fills to up to a 7 day supply, especially for Dental providers and Emergency Departments.
- c. It is understood that there will be many challenges with operationalizing this policy. Plans would need to discuss lookbacks and PA policy for new starts.
- d. AHCCCS will be reviewing short acting narcotics for quantity limits in a future meeting.

PILL SPLITTING: DR. CHAKMAKIAN, CMO, UNITED HEALTHCARE

1. Dr. Chakmakian would like to get more information and present to the committee at a future date.
